

Canine Enrichment Program for 501(c)(3) Rescues

Thank you for your interest in allowing Jeff Coltenback to provide care your animal/s. Jeff and/or Diane Coltenback provide pet boarding and/or training for shelter and rescue dogs at a discounted rate. The following are the criteria for placement for dogs with us. But first a little bit about our environment. We foster/board dogs in our home. We have an attached garage where we have four to five kennels set up for the dogs. Therefore, any dog coming into our home must crate-able. The garage leads directly into our large fenced yard. We also have a 10 foot by 16 foot climate controlled barn that can provide foster or boarding space for additional animals. We also have a path throughout our 2.5 acres of property where we take the dogs for a stroll. Our dead end, cul de sac also offers a one mile loop where we can safely and privately walk the dogs. And, we offer pack walks for the local community here and often bring select foster/training dogs on pack walks – provided they are behaviorally equipped to handle such a social situation. Although the dogs in our care are kenneled they get out in the yard and/or walked 5-7 times a day starting around 7am with the last biological relief being around 9pm. We provide soothing music and the use of essential oils to optimize their mental state. We provide daily training and structure. Daily training is provided by Jeff and/or Diana Coltenback. Once they reach a level of stability, we expose them to the interior of our home (when possible) to ensure they can acclimate to domestic life.

Training consists of the use of all schedules of reinforcement and protocols, depending on the needs and capacity of each dog to respond to certain applications. I may use training tools [for walking] like gentle leaders, halti, starmark collars, martingales, no-pull harnesses, loop leads, etc (I do not use choke chains). I also provide massage and Reiki treatments to all dogs in our care to further assist them in achieving behavioral balance. We also usually have dogs here that can assist us in socializing foster dogs around other animals. As you know, some dogs may never like other dogs. But, it is our belief that they must at least be able to coexist in the presence of other animals. We provide you with updates regularly, including an initial intake video, recurring progress video and any ongoing info you require. If you have any questions that have not been answered or covered above or below, please let me know.

Criteria For Intake/Guidelines

1. Accepting Human aggressive dogs into our Canine Enrichment Program is done on a case-by-case basis.
2. Training and behavior modification services are provided by and paid to Jeff and/or Diane Coltenback.
3. Dogs must be crate trained. No exceptions. But, crate training can be provided for an additional charge as blankets, cleaning supplies and labor increases during such training. (\$100 surcharge)
4. Any dog we are considering for intake may be subject to an evaluation by me (Jeff) PRIOR to us committing to that dog. Prior assessments and video may be accepted in lieu of.

Addendum: Clarification of Boarding Only versus Boarding and Training

The chart below illustrates the differences between boarding only and board and train. You may choose between the two at any time (**rate changes apply beginning of following month**). Please keep in mind the following. If you originally send a dog here for the training option and then opt out of that and move to boarding only, the training options below cease. However, if time permits, I continue daily training as a courtesy. But, from a daily training perspective, paid training clients take precedent over boarding only clients.

Changing from Training to boarding only is contingent on space. I only have 4 boarding-only kennels.
